Lab Tables, Benches, Workstations

LabTech lab workstations and benches can be made and designed for many different uses in laboratory applications for their durability, task-specificity, have a variety of modular and custom options including a variety of work surface choices such high pressure laminate, phenolic resin, epoxy resin, stainless steel, butcher block, or high density polyethylene.

Modular Lab Tables

Workstations

Lab Tables

Quick Ship Table (ships flat stacked or assembled)

LabTech Supply Company has standard size tables available for quick ship tables. Tables ship flat stacked and are available in the following work surfaces, high pressure plastic laminate or phenolic resin. These are a great option to keep shipping cost down and easy storage. Perfect for classroom settings, labs, military, or every day workstation use.

Custom Design Table

LabTech offers custom lab benches to fit specific needs and requirements. Call LabTech and we can help you bring a design that works best for your workspace. Once we understand your requirements we'll be able to provide a quotation and/or drawing to be sure the design fits your need. Keep in mind we can include any and all accessories or options with the design.

Balance Tables

Balance tables are meant for superior stability for highly sensitive equipment such as analyzers, microscopes, scales, sensitive measuring instruments. LabTech offers solid epoxy or marble balance tables along with custom heavy gauge steel framed tables with epoxy resin tops. Since weight helps eliminate vibration a balance table should be heavy duty.

Instrument Tables

LabTech is here to help create a custom solution for your instrument that best fits your space. We understand lab space is precious and instrument foot prints vary, so we can help create the perfect bench and integrate options that best fit your needs. From a mass spec bench to an LC cart or more we can help.

Adjustable Tables

Height adjustable tables are ideal for ergonomic environments. Adjustable table options are basic bolt adjustability along with both electric or hand crank hydraulic options. Perfect solution to meet ADA requirements and are ideal for multi user microscopes & workstations. LabTech offers a variety of height adjustability to meet your requirements.

Microscope Tables

LabTech offers ergonomic Microscope Tables for your laboratory use. These tables are designed with ergonomics and user comfort in mind – the front of the table can include an ergo curve so that your technicians can rest their elbows while viewing specimens under their microscopes. This contoured work surface can be added to any size table or cart to meet your microscopy or ergonomic needs.

All of our microscope tables can be customized with many options and a variety of surface configurations. Some of the popular accessory choices include built-in power strips, keyboard trays, and total lock casters (This allows easy movement of the table.) Additionally, grommets and wire management systems provide a workspace free of excess cords and other clutter.

LabTech offers FlexTech Modular Systems for more of a custom feel to meet exact requirements. This type of design allows you to build each station exactly to the technicians requirements. From an ergonomic stand point to multi user workstations and easy mobility. Modular lab systems can save time and be less expensive. Many options can be incorporated into each workstation.

Steel Casework

LabTech is a premier supplier of steel laboratory furniture used in leading research companies, educational institutions, health care facilities and government offices throughout the world. Metal Arc produces a wide array of casework products, including base cabinets, acid storage cabinets, UL-listed flammable storage cabinets, wall case units, and floor case units.

Constructed from 18-gauge metal tube and prime grade cold-rolled steel, Metal Arc base cabinets are built to withstand the harshest of laboratory environments. LabTech wall cases provide a highly functional and visually appealing way of maximizing your overhead storage needs. Wall cases are available in a number of door styles, including hinged or sliding glass doors, or as open units.

LabTech wall cases are available in a wide range of sizes to meet your specific needs.

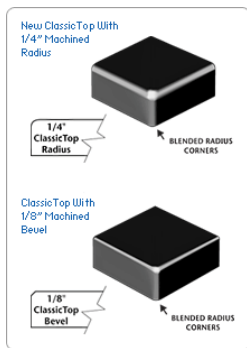

Fume Hoods

LabTech brings you products that combine technological innovation and environmental integrity. The range of applications for our product extends from high school to higher education to industrial applications including painting. Whether it's our Green Solution fume hood or a ducted fume hood, we develop the systems you need for the tasks you are looking to do. For more fume hood info please contact us for our specific fume hood brochures and work sheets.

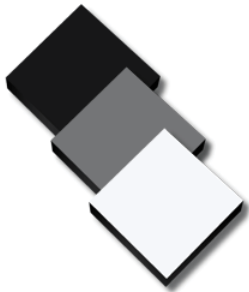

Countertops

Epoxy Resin Countertops

LabTech offers Epoxy Countertops that are molded and oven cured in large slabs and can be sold as such or custom fabricated to meet your exact specifications. ClassicTop epoxy resin worksurfaces are the standard of our industry. The 1/8" [3mm] beveled edges and availability in seamless lengths up to 96" [2438mm] provide the greatest flexibility for use in every application.

Phenolic Resin Countertops

Chem Grade, Standard Grade, and Fire Rated surfaces are available thru LabTech Supply Company. Solid Phenolic Compact (SPC) worksurfaces by LabTech Incorporated are the functional and decorative surfacing options for a wide variety of horizontal and vertical applications. Three styles are available, each based upon specific performance solutions. SPC by LabTech is UL Environment (Greenguard Gold) Qualified, recognized for LEED contributions and proudly manufactured in the U.S.A.

Plastic laminate, Chem Surf and ESD laminate HPL Work Surface

- High pressure laminate, impact resistant
- 180 degree rolled Ergo front edge
- 1.125" thick industrial grade particle board under core
- Sealed on bottom to prevent warping

Chem Surf Laminate

- Chemical resistant HPL laminate
- High impact resistant
- 180 degree ergo front rolled edge
- 1.125" thick particle board under core
- Surface is sealed on bottom to prevent warping

ESD Laminate

- High impact resistant laminate
- Ergo 180 degree front rolled edge
- 1.125" thick industrial grade particle board
- Dissipation level is greater than 10⁶ ohm-inches, but less than 10⁹ ohm-inches

Stainless Steel

Heavy wall 18g stainless steel glued over industrial grade 1.125" thick particle board. All edges are welded to prevent any water from penetrating the wood core. Brushed finish to hide any scratches and for up-keep. Steel cap is glued to wood core and is cured over night for positive bond. Non-wood core SS top is also available

Lab Chairs

Vinyl Chairs

Our ergonomic vinyl upholstered chairs adjust to fit most body types and workstations. Optional 6-way adjustable arm rests support a variety of arm placements for proper ergonomics. Additional ergonomic benefits include a contoured waterfall seat cushion and an adjustable back rest with lumbar support for increased comfort during extended sitting durations. Vinyl chrome chairs are constructed of highly durable molded polyurethane foam cushioning covered with easily cleaned antibacterial/

antimicrobial vinyl available in over 65 standard and custom colors. Optional seat tilt provides 8° forward and 3° backward locking tilt for ergonomic posture support. Optional 20-inch diameter chrome foot rings are available.

Polyurethane Chairs

Our ergonomic polyurethane chairs adjust to fit most body types and workstations. Optional 6-way adjustable arm rests support a variety of arm placements for proper ergonomics. Our polyurethane chairs are easily cleaned, making them ideal for almost any environment. Choose from chrome hooded rolling, non-marring casters (suitable for both hard and carpeted floors) or black, non-marring bell glides (suitable for both

hard and carpeted floors) on a polished cast aluminum base. Optional seat tilt provides 8° forward and 3° backward locking tilt for ergonomic posture support. Optional 20-inch diameter chrome foot rings are available. Each ergonomic polyurethane chair is backed by our 15-year warranty, lifetime on the pneumatic lift. This polyurethane chair is also available in desk, medium, or high bench height.

Laboratory Stools

Our ergonomic vinyl stools feature a 360° adjustable height adjustment that can be operated from any position. These medium bench height stools offer several customization options, including your choice of chrome-hooded casters or black glides on a polished cast aluminum base, and over 65 antimicrobial/antibacterial standard and custom vinyl color configurations. Optional 20-inch diameter chrome foot ring is

available. Each ergonomic stool is backed by our 15-year warranty, lifetime on the pneumatic cylinder. This stool is also available in desk, medium, or high bench height.

ESD Fabric Chairs

Our ergonomic fabric ESD upholstered chairs adjust to fit most body types and workstations. Additional ergonomic benefits include a contoured waterfall cushion and an adjustable back rest with lumbar support for increased comfort during extended sitting durations.

- Optional foot ring is available in chrome & Tilt is available

ESD chairs feature several customization options, including your choice

of ESD casters or glides, and static-dissipating color configurations. Each ergonomic ESD chair is backed by our Lifetime warranty. This ESD upholstered chair is also available in desk, medium or high bench height.

ESD Vinyl Chairs

Our ergonomic vinyl ESD chairs feature proper grounding, conductive, and dissipative static control materials. Additional ergonomic benefits include a contoured waterfall cushion and an adjustable back rest with lumbar support for increased comfort during extended sitting durations.

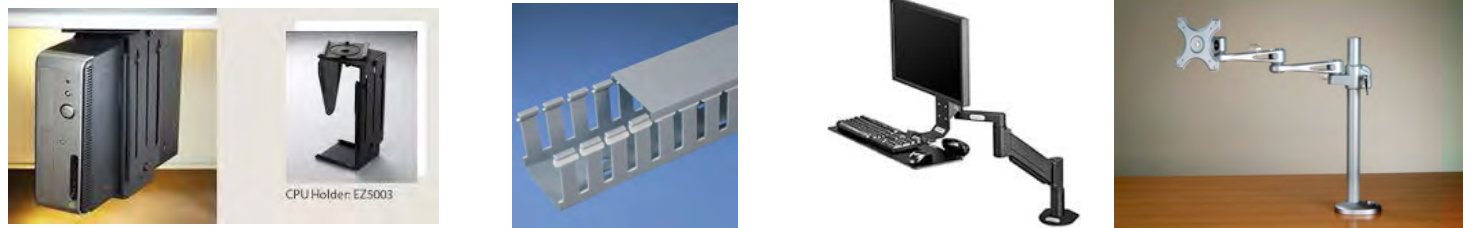

- Optional foot ring is available in chrome & Tilt is available
