# Mobile Cabinet Specifications

## MOBILE CABINET CONSTRUCTION & SPECIFICATIONS

- Mobile cabinet constructed of 18ga heavy duty cold rolled steel
- Welded front stringer or front and rear beam are made of 16-gauge steel and are fully welded to help make the cabinet square
- Powder coated paint has been positive tested at 600-hour salt test

## DRAWER CONSTRUCTION & SPECIFICATIONS

- 100lb 18" full extension ball bearing drawer slides are used for every drawer
- Double wall drawer and door faces to prevent dents and easily replaceable if damaged
- Full finger pulls, 4" lab grade aluminum pulls, or 4" aluminum cup finger pulls are all available
- Drawer bottoms are fully welded to prevent fluid from leaking
- Side mounted drawer slide brackets are welded to the side of the drawers to prevent contamination
- Powder coated paint has been positive tested at 600-hour salt test
